

## GOVERNMENT PREDICTS GREATEST WHEAT CROP EVER PRODUCED HERE

Yield Will Be About Half of  
Total Production of World.  
Estimates Now Claim

Washington, June 8.—Nine hundred million bushels of wheat, almost half of the average of the world's wheat production and a new record for the United States, is the prospective total yield of the farms of the country this year, the department of agriculture announced today in its June crop report.

The enormous crop will be 137,000,000 bushels more than ever was grown before in the United States in any one year. Excellent weather for the growing crop and an increase of 6.4 per cent in the acreage planted to wheat are responsible.

There also will be large yields of oats and barley, probably second in size in the history of the nation.

### TYPHOID FEVER BANISHED FROM UNCLE SAM'S ARMY

Washington, June 9.—Typhoid fever has been banished from the United States Army, Major F. F. Russell in a recent issue of "The Journal of the American Medical Association" makes this statement and says the disappearance of typhoid is due directly to typhoid vaccination. In the entire enrollment of over 90,000 men in barracks or camps in the United States, Philippines, China, Porto Rico, Cuba and Hawaii there were during 1913 only three cases of typhoid. Two of these were recruits, who, after five days enlistment, developed the disease. Out of the entire body of 90,000 men only one case occurred in an inoculated soldier during the entire year.

This case was a soldier in the battalion on duty in China. All three of these cases fully recovered. It is pointed out that typhoid fever has been for centuries, the most dangerous disease to soldiers and that every army, whether on post duty or in the field, has expected to pay a heavy toll in sickness and death in this disease.

## CARL MORRIS WINS ON FOUL

Morris Had Best of Flynn from  
the Start. Receipts \$10,000

Carl Morris won on a foul from Jim Flynn of Pueblo in the ninth round of a scheduled fifteen-round battle at the Southwest Athletic Club last night. It was Morris' battle all the way up to the time of the foul. Referee Eddie Cochrane of the Kansas City Journal declared it was a foul and two physicians who examined Morris said there was no question but that Morris was hit low.

Morris landed almost at will last night and had the fireman in a bad way several times. His left jab kept Flynn away, while he sent in punch after punch with his right with telling effect. His right uppercuts damaged Flynn considerably, while his left hook to the face cut the fireman's mouth and closed his left eye.

From the first Morris took the lead and he easily held the fireman back and even bested him at close quarters.

Flynn almost was knocked out in the sixth. Early in the round he received a right and left to the head and went down for the fourth count. He was up and in a few seconds went down again from a volley of punches. He arose at the seven count and went down again for the count of five. The bells saved him, as he virtually was "out" on his feet. Morris grabbed the seventh round by a shade, but Flynn won the eighth by a slight margin.

In the ninth Flynn had a considerable lead when the foul came. Flynn rushed in, swinging both hands to the body, when a low, sweeping right caught Morris full in the groin. The big fellow sank to the floor from pain. After ten had been counted, Dr. A. M. Gregg and Dr. R. M. James made an examination and stated that there was no question but that Morris had been fouled. Referee Eddie Cochrane declared the punch was a low one and awarded the bout to Morris.

### WIDER SKIRTS HAVE ARRIVED

In the June Woman's Home Companion Grace Margaret Gould, fashion editor of that publication, writes an article entitled "Skirts Flare Out—Behold the Pantalette!" in which she comments on the pantalette of today and yesterday and other new French fashion frivolities. Following is an extract:

"The big new fashion fact to consider is that wider skirts have definitely arrived in Paris. It is an old, old trick of Fashion that the moment her devotees have accommodated themselves to one of her whims, she quickly introduces another. Women have been struggling for a long time to learn to mince along without landing on their heads. Now, with wider skirts will come the stride."

Case Next Monday

Thaw's fight for freedom reached the supreme court of the United States today when former Governor Stone of Pennsylvania, as counsel, asked for his release on bail, pending a final decision of the proceedings by which the state of New York seeks to return the noted prisoner to Matteawan from New Hampshire.

Chief Justice White gave representatives of New York until Friday to file a brief in opposition to Thaw's release, and a decision may be given next Monday, when the supreme court will conclude its work for the term. The supreme court rules provide for bail in such cases and Justice Aldrich of the federal court of New Hampshire, who gave the favorable decision in Thaw's habeas corpus proceeding, announced in his decision he was not sure he ought to deny a release on bail, but would present the matter to the supreme court.
